And they stack and stack ...

RS 32 - High-Speed / High-Volume Stacker

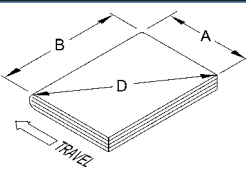

RIMA  SYSTEM

Requirements & Solutions

The RS 32 is the ideal stacker for high-speed and high-volume applications. The three-stage upper bin with slightly inclined forks forms neat drops that the turntable, with integrated compression plates, turns into perfect stacks. The "intelligent" servo pusher, together with the synchronized pivoted delivery belt, guarantees soft and controlled stack ejections even at the shortest cycle times. Ease of operation is provided by the swivel-mounted guards, the central bin adjustment and the graphic touch screen. As with all RIMA-SYSTEM stackers, the RS 32 is based on proven technology and offers excellent return on investment.

Technical Data

Formats		Minimum	Maximum
	"A" Dimension	102 mm (4.00")	320 mm (12.63")
	"B" Dimension	145 mm (5.75")	500 mm (19.63")
	"D" Dimension	limited by "A" & "B"	limited by "A" & "B"
	Thickness	4 pages at 57g/m ² (35lbs)	96 pages at 57g/m ² (35lbs)
Stack height	RS 3210 upper bin		210 mm (8.25")
	RS 3217 total stack		330 mm (13.00")
Infeed height	RS 3210 varies between	546 mm (21.50")	1270 mm (50.00")
	RS 3217 varies between	648 mm (25.50")	1372 mm (54.00")
Infeed stream lap		19 mm (0.75")	102 mm (4.00")
Delivery height	876 mm (34.50")		
Operating speed	max. 120.000 products per hour (product permitting)		
Input power	3 KVA		
Air requirement	170 l/min @ 5,5 bar (6 cfm @ 80 psi)		
Options	double squeeze roller, two-piece servo pusher system (left, right, straight out), servo turntable, anti-static option		

Technical specifications available on request. The manufacturer reserves the right to change the technical specifications without prior notice (RS 32-E-07/05).
